

# Ohutu paigaldamine - Dokadek 30

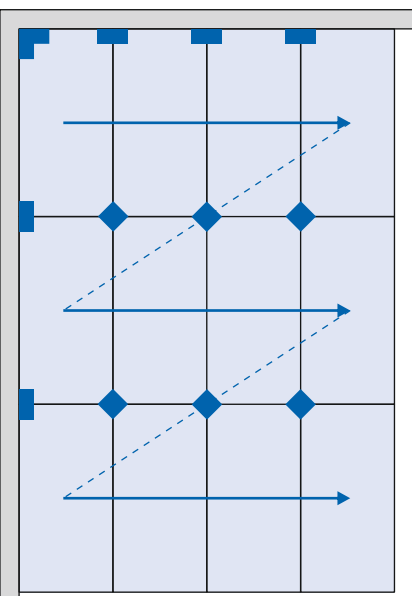

### Järgida tuleb lubatud ühenduskohti!

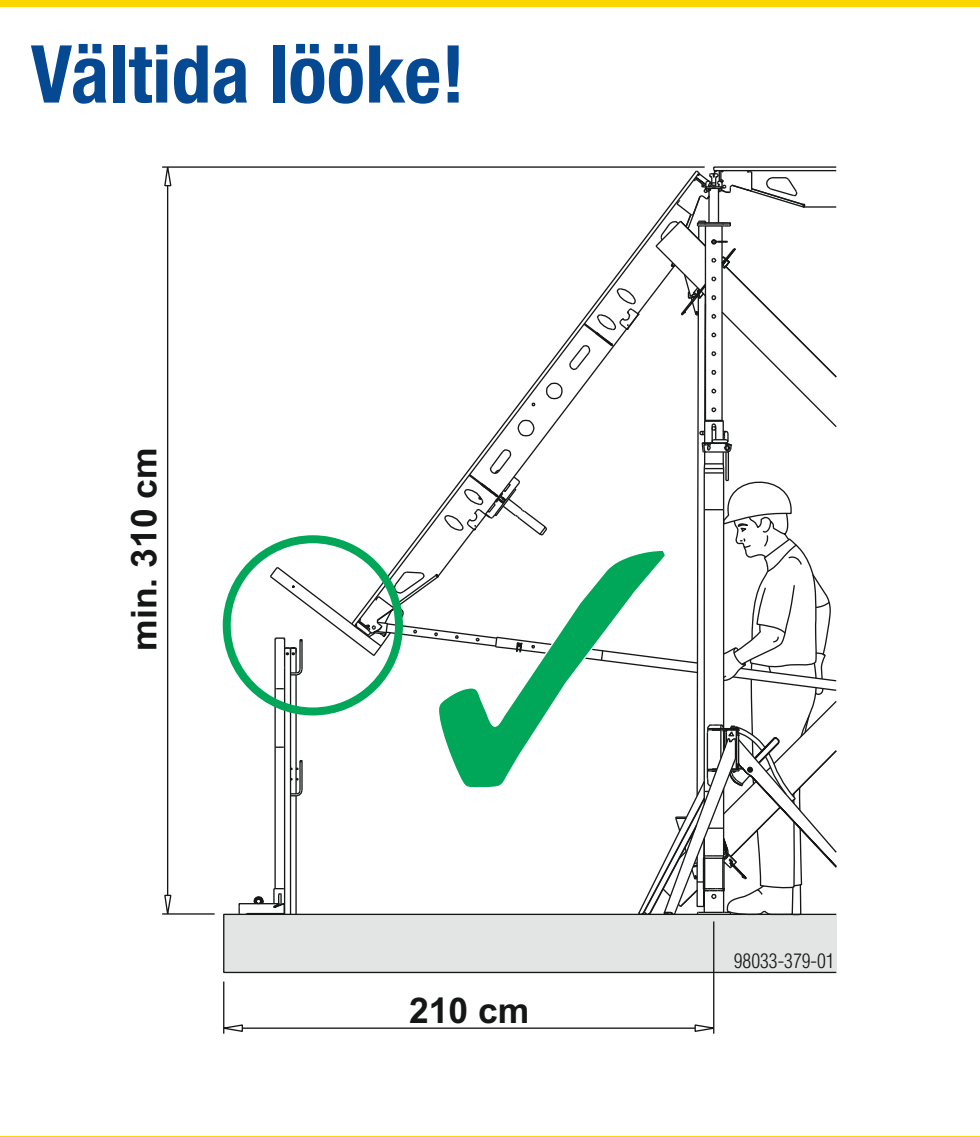

### Rakestamine tüüptsoonis

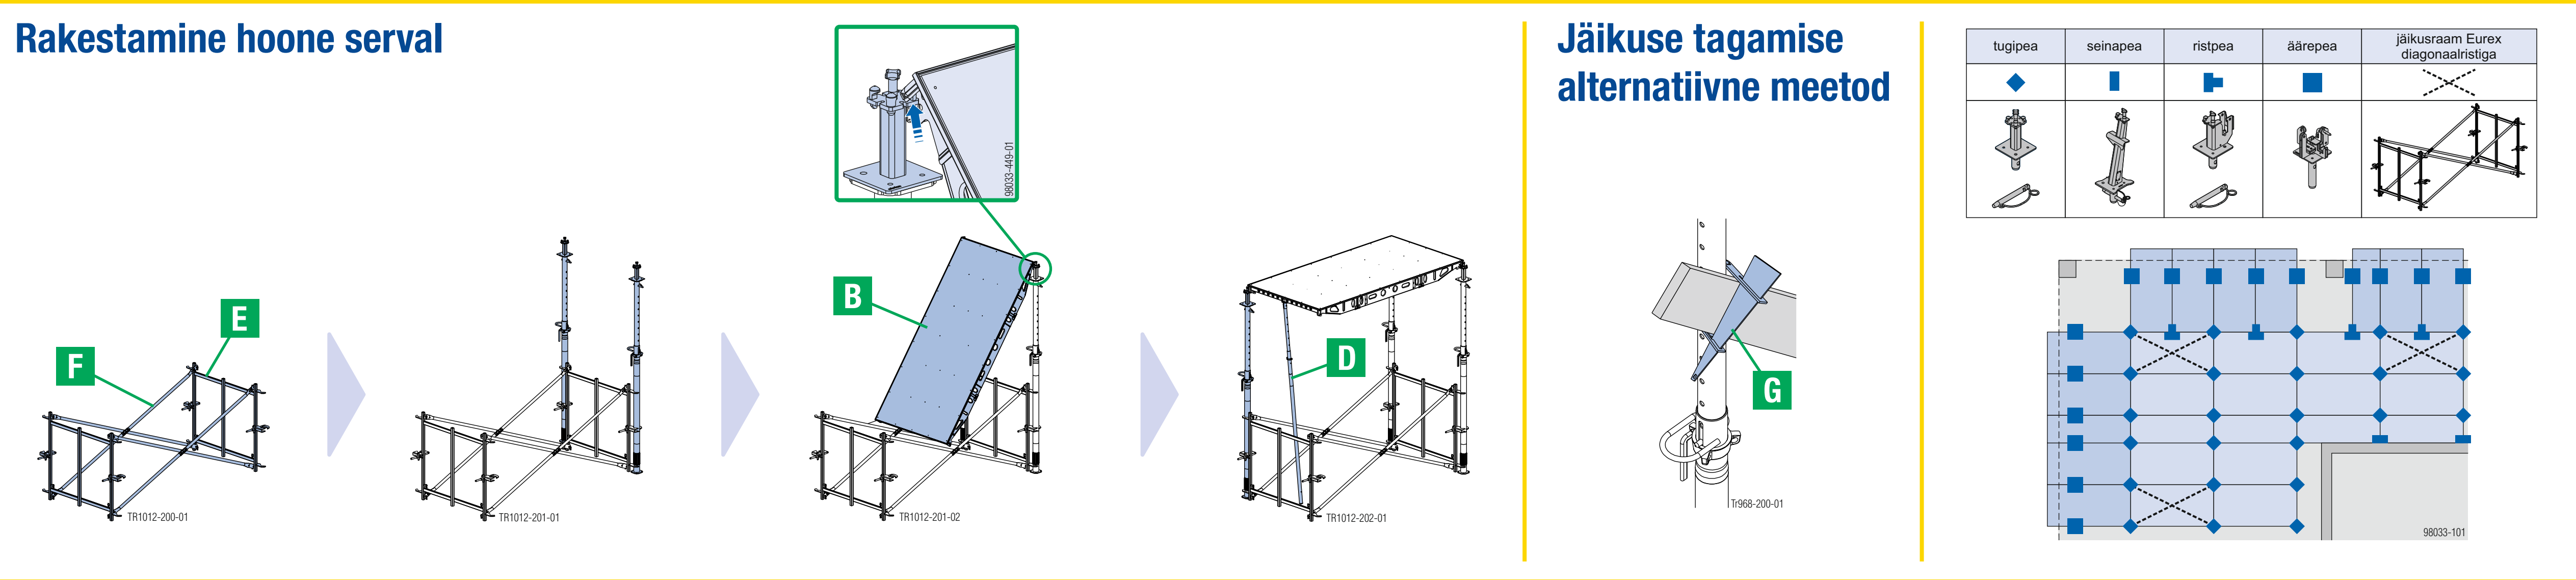

| tugipea | nurkühendus | seinapea |
|---------|-------------|----------|
|         |             |          |
|         |             |          |

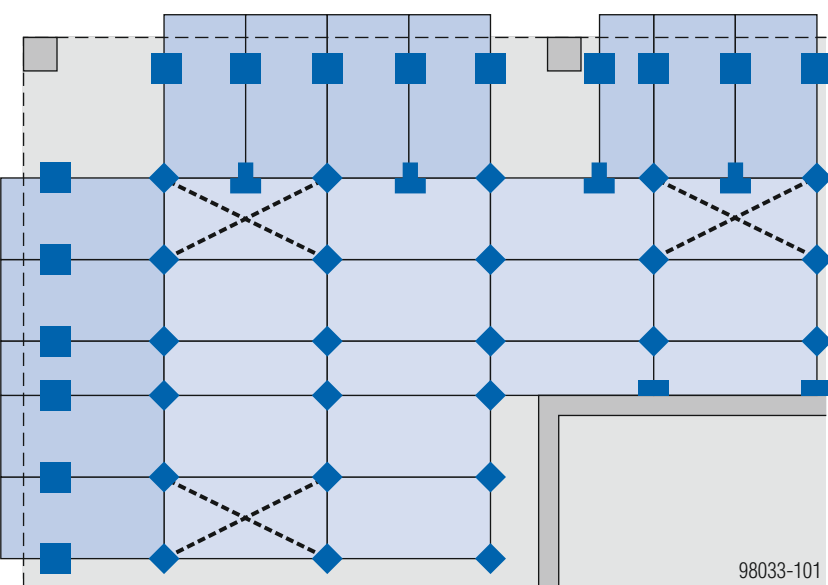

### Vältida lööke!

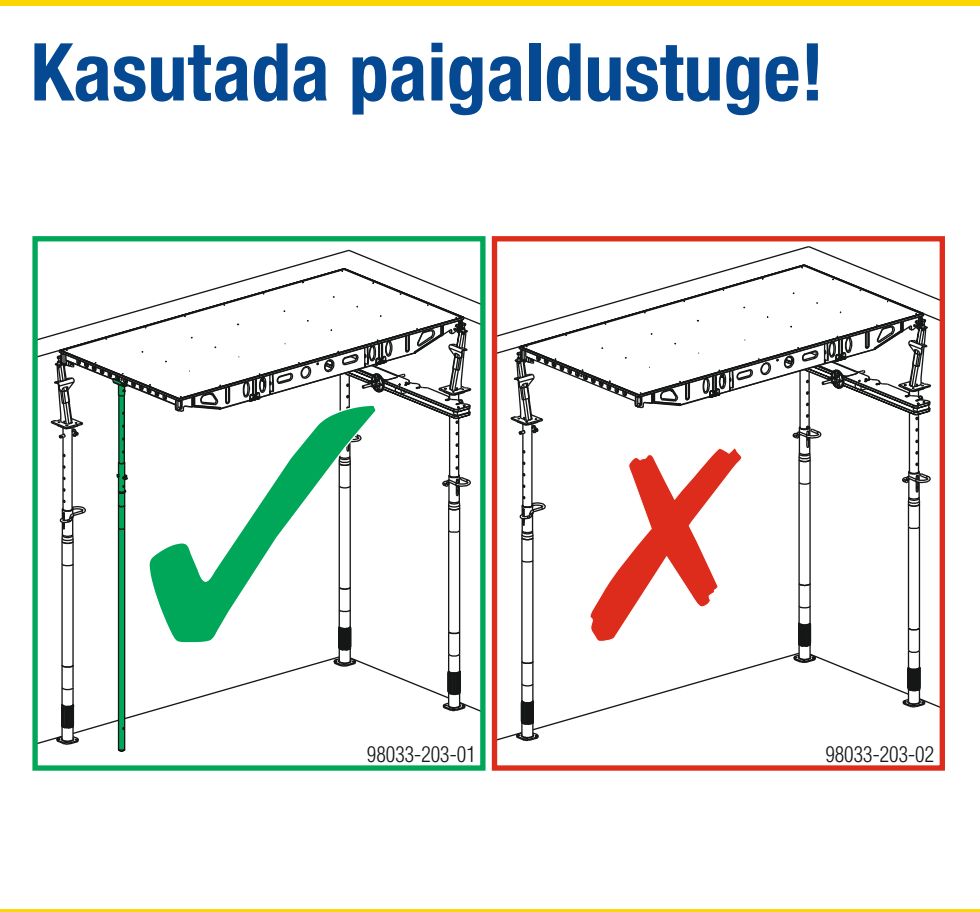

### Rakestamine hoone serval

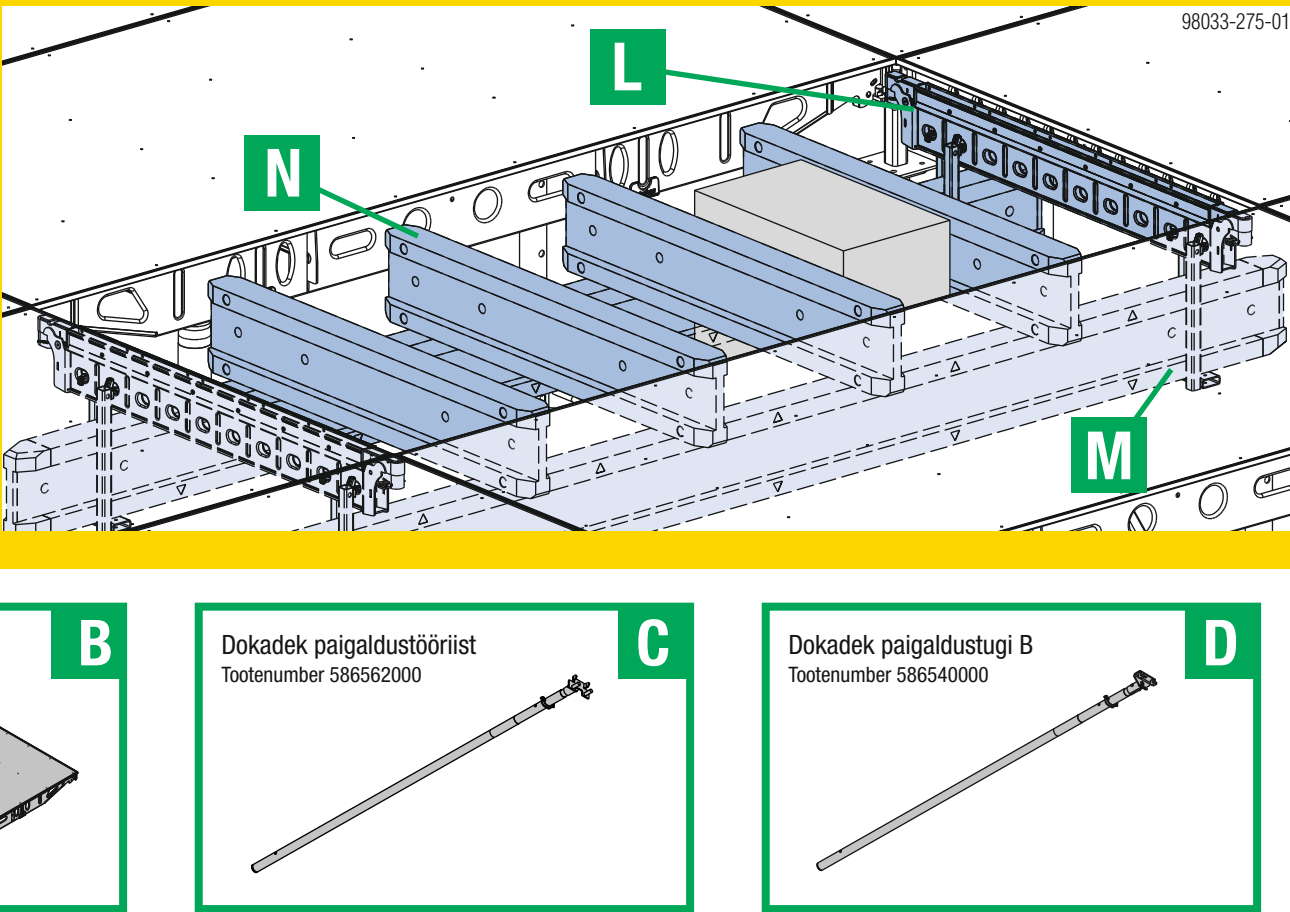

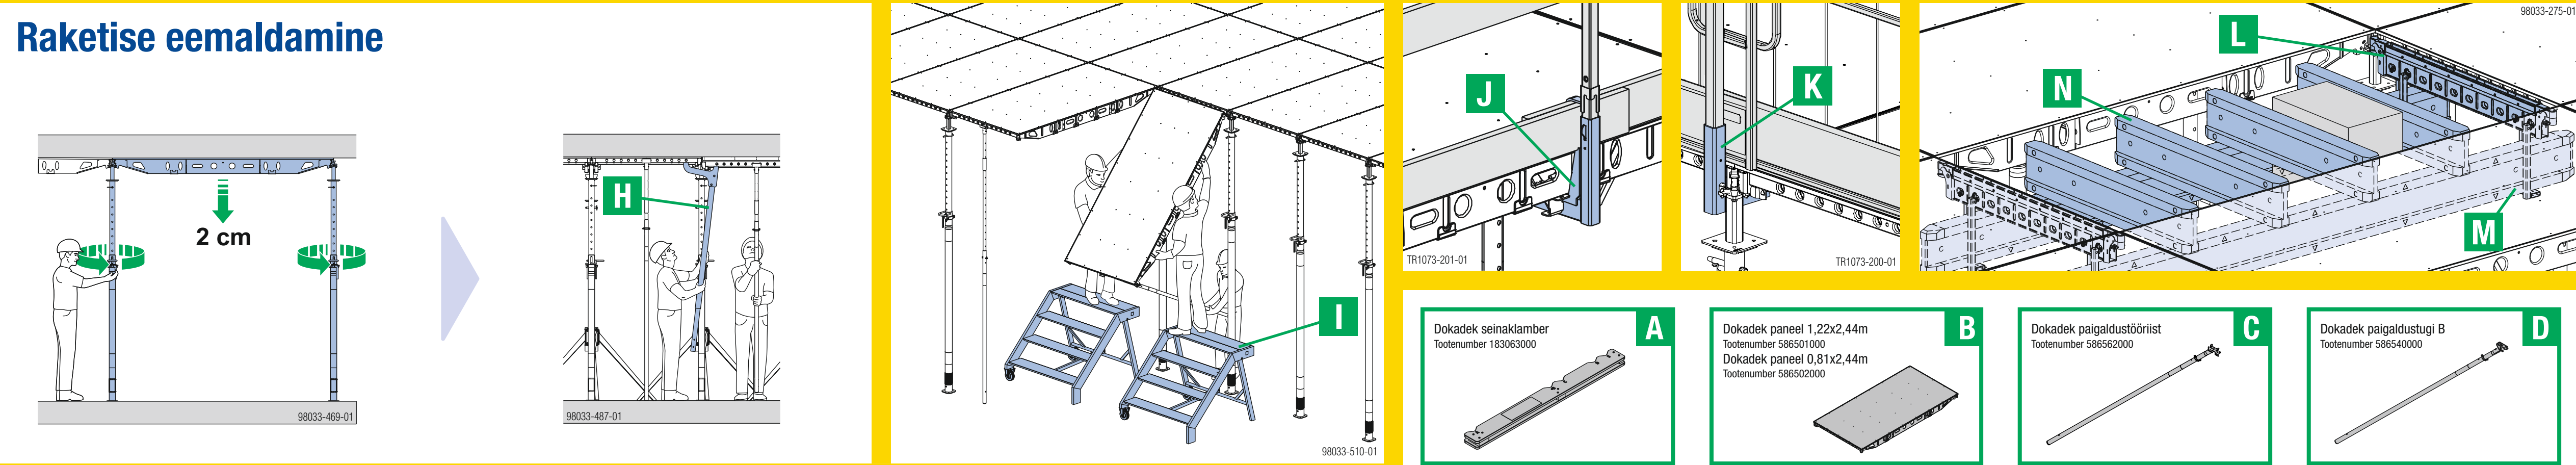

| tugipea | seinapea | ristpea | äärepea | jäikusraam Eurex diagonaalristiga |
|---------|----------|---------|---------|-----------------------------------|
|         |          |         |         |                                   |
|         |          |         |         |                                   |

### Kasutada paigaldustuge!

### Raketise eemaldamine
