We make it work.

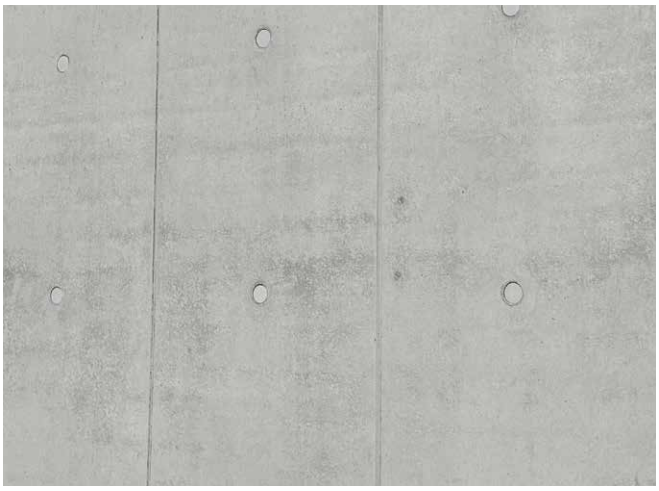

Doka-Trenn bio

The eco-friendly universal release agent for all types of formwork sheets.

Doka-Trenn bio is a ready-to-use release agent based on renewable raw materials. It can be used on timber, plastic and steel formwork sheets and helps to achieve a uniform concrete finish while also being highly eco-friendly.

Universal

- Universal concrete release agent, usable on wood, plastic and steel formwork sheets
- Usable even at low temperatures down to approx. -20 °C
- When used properly:
  - no discoloration of the concrete surface
  - further processing of the concrete surface with e.g. paint, plaster, ceramic or wallpaper is possible

Homogeneous concrete surface by usage of Doka-Trenn bio.

Cost efficient

- Economical in use (coverage up to 110 m²/l)
- Concrete can be poured immediately after application

Eco-friendly with label

- Biodegradable
- GISCODE BTM 10 — compliant for DGNB certification top quality level 4*
- Awarded the Blue Angel (RAL-UZ 178) and the EU Ecolabel (license no.: DE/027/351)

The ultra-thin, uniform spray film allows immediate pouring of concrete as soon as it is applied.

* Quality levels according to criteria catalogue ENV 1.2 — Risks to the local environment
