Safety Net Fans

The ultimate debris net system for any building structure

www.doka.com

The ultimate debris net system for any building structure

Doka's Safety Net Fan are pre-assembled units which can be used on any structure and adapted to any shape. The system is available in two models: standard width and extra wide to safely catch objects and debris. Different sizes are available to perfectly adapt the system to your requirements and applications.

Dependable safety for your site

- Triple layer nets for ultimate protection of any falling objects and debris
- 3 ft (1m) overlap provide more protection between the units
- Resistant to high wind loads
- UV Treatment to resist sun damage
- Compliant with ANSI A10.37, debris net systems used during construction and demolition operations
- Various connection options available to allow attachment to any structure
- Lightweight construction ensures easy installation & handling

Standard type

- Width: 10.2 ft (3.1m)
- Length: 13.1 ft (4.0m), 19.2 ft (5.85m)

Standard type

Extra wide type

- Width: 15.75 ft (4.8m)
- Length: 13.1 ft (4.0m), 19.2 ft (5.85m)

Extra wide type

Think safety // Doka, for safety's sake

At Doka, safety is written very large – it's what our safety symbol stands for. You'll find it pointing to wherever Doka customers enjoy particularly great safety benefits, both technically and personally, because your safety means a lot to us.
