

Instruction for the authorisation of DFDS

Some important hints in advance:

- Please, first check the system requirements, shown on our website. When the condition is not fully satisfied, Doka cannot guarantee for smooth ability and functionality. Caution: The system requirements of each program module are different!
- For "DFDS full" you need the appropriate AutoCAD-installation.
- Each program module must be registered separately!
- The authorization code is only valid for the computer and the program module, from where the registration has done!

Authorisation process:

- 1.) Call the requested program (Tipos, Beam statics, ...).
The following dialogue is opened:

Enter authorisation code

The full version of this product is only available once a valid authorisation code has been entered.

Register and get your authorisation code by clicking on the following link.

<http://www.doka.com/tipos-registration/?secc=1512351471&productcode=TIPOS900>

After registering successfully, you will receive your authorisation code via e-mail.
This can take up to one working day.

Please enter your authorisation code here:

Find more information on the Doka website.

Internal information: SECC value: Product code:

2.)

When clicking on the link (blue, underlined text) in the screenshot shown above, you are connected to the following form on the Doka website:

The screenshot shows the 'Tipos License' registration form on the Doka website. The form is set against a white background with a yellow header bar containing the 'doka' logo and 'EN-' on the right. The form fields include: 'Company / Organisation *', 'Category *' (dropdown), 'First name *', 'Last name *', 'Telephone number *', 'e-mail *', 'Address *', 'Postcode *', 'Town or City *', and 'Country *' (dropdown). A large text area for 'Your message' is at the bottom. A checkbox for 'Please accept Doka Terms and Conditions for the Use of Doka Planning Software (B2B) *' is next to a blue 'SUBMIT' button. A legend indicates '* Required field'. At the bottom right, there is a link to 'www.doka.com' with a blue arrow icon.

3.)

If the registration is complete and sent, the following message is displayed:

The screenshot shows the same 'Tipos License' registration form on the Doka website, but with a green confirmation message at the top: 'Your authorisation request has been sent. You will receive the authorisation code in the next few days.' The rest of the form, including the 'SUBMIT' button and the 'www.doka.com' link, is identical to the previous screenshot.

4.)

Close the website now. Afterwards close the dialogue "Enter authorisation code" with „Cancel“. Now the program runs still as demo version! This dialogue will still be displayed when starting the program again, until a valid authorization code is entered.

5.)

Within the next working days you will get an e-mail with the authorisation code for the requested module, which you must enter in the dialogue mentioned in point 1.). We recommend entering the authorisation code with Copy / Paste, to avoid type errors.

Then the program is fully usable!
