# Floor prop Eurex 20 basic

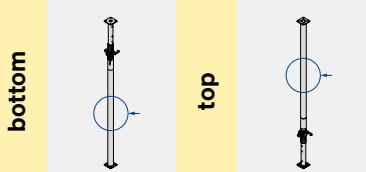

**The floor prop with full load-bearing capacity.** Lower weight, proven strength – Thanks to the use of innovative materials, the Eurex 20 basic is significantly lighter than comparable props in its load-bearing class. And all this with the usual high performance and durability.

## Permissible load-bearing capacity (kN)

Prop length (cm)	Eurex 20 basic 300		Eurex 20 basic 350		Eurex 20 basic 400	
	OT bottom	OT top	OT bottom	OT top	OT bottom	OT top
400					21.1	23.4
390					22.7	25.3
380					24.2	27.3
370					25.9	29.5
360					27.7	31.5
350			21.3	23.9	29.5	31.8
340			22.9	26.1	30.6	31.8
330			24.6	28.5	31	31.8
320			26.5	31.1	31.1	31.8
310			28.5	31.8	31.1	31.8
300	21.7	24.3	30.4	31.8	31.2	31.8
290	23	25.9	31	31.8	31.3	31.8
280	24.4	27.7	31	31.8	31.4	31.8
270	25.9	29.4	31	31.8	31.7	31.8
260	27.3	31.2	31.1	31.8	31.8	31.8
250	28.9	31.8	31.2	31.8	31.8	31.8
240	30.3	31.8	31.5	31.8	31.8	31.8
230	30.9	31.8	31.8	31.8	31.8	31.8
220	31.1	31.8	31.8	31.8		
210	31.3	31.8	31.8	31.8		
200	31.7	31.8	31.8	31.8		
190	31.8	31.8				
180	31.8	31.8				

Position outer tube

## Particularly ergonomic

thanks to a weight reduction of up to 4 kg compared with conventional props in class B/D.

## Cost-saving

through the use of innovative materials and high-quality workmanship that ensure high durability with reliable quality and proven load-bearing capacity.

## Simple and efficient

because of the special thread geometry. It allows easy loosening of the adjusting nut even under high loads, while the low weight reduces the working effort.

The hole numbering system allows to pre-set the prop to just the right size.
